About This Workshop

Most people believe leadership travels in only one direction: from the top down. This premise is incorrect, as it assumes that all leadership is positional (based on the title of "leader"). 360° Leadership will teach you that influence, not position, is the key to successful leadership. No matter where you are in the organization, you can learn to lead in every direction by becoming a person of influence. Whether someone is "above" you, "below" you, or "beside" you, you can influence them in a positive way. 360° Leadership creates greater employee empowerment and productivity, producing positive results for your organization.

Learning Objectives

- The value of increasing your influence at every level of the organization
- How to identify your current level of influence
- Methods to expand your influence with others
- Practical strategies for leading down, across, and up in any situation
- How to overcome the challenges of a bad boss
- The importance of instilling a culture of 360° Leadership
